

## OUR MATERIALS

- Our wide format printer can produce prints up to 104" wide
- We use real dye sublimation process, not direct print to fabric, which provides more realistic colors and superb resolution
- We use professional transfer paper and original inks
- Velcro and zippers are American YKK brand
- Our fabrics are made in the USA
  - Wrinkle Resistant
  - Exceptional Whiteness
  - Vivid Color Reproductions
  - 100% polyester
  - Meet all standards coast-to-coast for flame resistance
  - California registered flame resistant product - Registration No. F-97801

## CARE AND MAINTENANCE

Dye Sublimation Fabric Graphics can be cleaned and washed easily and with good results. Successfully cleaning your graphics depends on following the below instructions. Results may vary depending on the contaminant, how dirty the graphics are and what fabric you are cleaning.

### SPOT CLEANING

Fabric can be spot treated, as with typical laundry. Use mild soap and cold water. Test on a small spot in a less than obvious spot first.

### MACHINE WASHING

Fabric graphics can be machine washed in cold on a gentle cycle, with mild soap and cold water, no bleach. Lay flat or hang on frame to dry.

### CAN BE DRY CLEANED

### DO NOT IRON

Use a hand or commercial steamer to eliminate any wrinkles or creases.

### STORAGE

Store gently folded in a plastic bag, in a cool dry area. Close zippers before folding. Fabric must be completely dry prior to storing.
